Charting Your Course: A Stellar Career Orientation Workshop By Amity University For The Elite English School Students

"Remember, students, the future is yours to explore – dream big, aim high, and The Elite English School will be your launchpad to success!"

- Ms. Janet, Counselor
The Elite English School, Dubai

ELITE CONNECT

On Wednesday, 5th June 2024, The Elite
English School hosted an enlightening Career
Orientation Workshop in collaboration with
Amity University, Dubai. This highly
informative session was specially planned for
our Grade 11 and 12 students, both Science
and Commerce stream. This session was
designed to empower our students by giving
them a glimpse into the exciting world of
higher education and future careers.
By exploring various programs and their
potential career paths, students can start
making informed decisions about their
educational goals, setting them on a course
for a bright and fulfilling future.

Led by a team of three professionals - Dr.

Ganga, Dr Ved and Dr Mahshid from Amity
University who shed light on the vast universe
of courses awaiting our eager graduates. The
experts opened up a portal of possibilities,
showcasing the vast array of exciting
programs students can pursue.

Dr. Ganga and her colleagues made the session an interactive adventure, sparking curiosity in the minds of our students. They explored the future scope of various careers, painting a vivid picture of what life could be like as an engineer, architect, computer scientist, psychologist, entrepreneur, law expert, chartered accountant, fashion designer, and more!

During the Q&A session that followed, our students, asked insightful questions from the nitty-gritty of specific programs to the ever-important "career success" query. Dr.

Ganga's team tackled them all with patience and enthusiasm.

By the end of the workshop, the message was clear: Planning your educational goals early is like setting your sights on the stars – it gives you direction and propels you towards a future that's out-of-this-world (pun intended!).

So, a big round of applause for Dr. Ganga and her team for this stellar session, and a huge thank you to Amity University, Dubai for making it happen!

A World of Possibilities – The experts passionately shared career options with students listening in rapt attention.

Query Time – Students had their queries answered in a kind and patient manner.

The Career Guides – Our CEO Mrs Mathews and our Counselor Ms. Janet thanked the team from Amity University for their kind efforts.
